

Egypt Index ETF (EGPT)

► APRIL 30, 2014

Fund Description

The **Egypt Index ETF** seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the **Market Vectors Egypt Index**. The Index provides exposure to publicly traded companies that are domiciled and primarily listed on an exchange in Egypt or that generate at least 50% of their revenues in Egypt. In exceptional cases, companies with less than 50% of their revenues derived from Egypt may be eligible for inclusion in the Egypt Index. As such, the Fund is subject to the risks of investing in this country.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses. You cannot invest directly in an Index.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect dividends and capital gains distributions. Net asset value (NAV) per share is calculated by subtracting total liabilities from the total assets, then dividing by the number of shares outstanding. Share price is the last price at which shares were traded on the Fund's primary listing exchange. Fund shares may trade at, above or below NAV. Performance current to the most recent month end available by calling 888.MKT.VCTR or by visiting marketvectorsetfs.com.

Investing involves substantial risk and high volatility, including possible loss of principal. An investor should consider the investment objective, risks, charges and expenses of the Fund carefully before investing. To obtain a prospectus and summary prospectus, which contain this and other information, call 888.MKT.VCTR or visit marketvectorsetfs.com. Please read the prospectus and summary prospectus carefully before investing.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called creation units and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

Averages are market weighted. Price/Book Ratio is the price of a security divided by the book value per share of the security. Price/Earnings Ratio is the price of a security divided by the last twelve months earnings per share of the security. Market Capitalization of an individual, publicly traded company is calculated by multiplying the company's stock price by the total number of its shares outstanding.

The Fund is subject to a high degree of risk, including those associated with less reliable financial information, higher costs, taxation, decreased liquidity, less stringent reporting, and foreign currency risks. Special risks particular to Egypt investments include expropriation, political instability, economic impacts of armed conflict, civil war and severe social instability, less developed capital markets, lower market capitalization, lower trading volume, illiquidity, inflation, greater price fluctuations, uncertainty regarding the existence of trading markets, politically controlled access to trading markets, unsettled securities laws, delays in currency repatriation, and trade barriers. Investors should be willing to accept a high degree of volatility and the potential of significant loss. The Fund may loan its securities, which may subject it to additional credit and counterparty risk.

The Market Vectors Egypt Index (the "Index") is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties.
